

STATINTL

Wednesday - 4 December 1951

STATOTHR

STATOTHR

1. Rep. Sheppard called the Director and Deputy Director on 3 December, but as neither of them were available I returned the call. A constituent of the Congressman had received a letter informing him that he had been elected to an organization, the letterhead of which was as follows: '[REDACTED]

25X1

[REDACTED] The letter was signed by [REDACTED] Secretary to the Board of Governors. Congressman Sheppard wished any information we might have regarding this organization. On 4 December I informed the Congressman, after checking with [REDACTED] that neither our scientific nor our security people had any information regarding this organization, but that our scientific people recommended that he check with the National Research Council on Constitution Avenue or with the FBI. Mr. Sheppard was appreciative of the information.

STATINTL 2. Mr. Wilson of the office of Sen. Knowland called regarding the case of [REDACTED] an applicant for employment here who had been rejected "due to organizational changes." After discussion with Col. Edwards and Col. Baird, I informed Mr. Wilson that we turned [REDACTED] down because he didn't meet our standards from the standpoint of I&S.

4. Dr. Kalijarvi, of the staff of the Senate Foreign Relations Committee, called regarding a request originally made to us through the Library of Congress. This involves CIA adding international boundaries to two outline wall maps for the Committee room. Col. Hansen concurred in my recommendation that we accept this request, and Col. Edwards informs me that he has no objection, subject to the approval of DD/A, if a credit line is given to CIA on the maps.
